You can send reply for the ticket and/or publish it as an article in the knowledge base.

The screenshot shows the 'Write your answer' form. The 'Title' field is empty. The 'Answer' field contains the text: 'How can we post a comment on the article and what is the approval criterion of comment?'. The 'Answer' field has a rich text editor toolbar.

Title: Enter the title that will be the subject of email notification. By default, the subject of a question submitted by KB user (end user) is displayed in this field.

Answer: Type-in the contents of the answer in this field which you want to send to the user. For convenience, the content of question submitted by the user (inscribed in rectangular box) is displayed in the text area.

The screenshot shows the 'Send Reply' form. The 'Publish this question answer as article in knowledge base' checkbox is unchecked. The 'Close this ticket after reply' checkbox is checked. The 'Send Reply' button is highlighted.

Check "**Publish this question answer as an article in knowledge base**" if you want to send the reply to a user as well as publish the answer as an article in the knowledge base. The published article will help other users if they have the same question. Refer article [Publishing a ticket as an article in knowledge base](#) for more details.

Check "**Close this ticket after reply**" if you want to close the ticket after sending a reply.

Click on "**Send Reply**" button to send the reply to a user. Otherwise, you can click on "**Cancel**" button to abandon the process.
