## Sending reply to a ticket

Click "Reply Back" option from Actions column of Open Tickets page under Tickets section of left navigation bar.

You can send reply for the ticket and/or publish it as an article in the knowledge base.

- **Title:** Enter the title that will be the subject of email notification. By default, the subject of a question submitted by KB user (end user) is displayed in this field.
- **Answer:** Type-in the contents of the answer in this field which you want to send to the user. For convenience, the content of question submitted by the user (inscribed in rectangular box) is displayed in the text area.

## <sup>1</sup>Forbidden

Additionally, a 403 Forbidden error was encountered while trying to use an ErrorDocument to handle the request.

Publish this question answer as article in kn	owledge base
Close this ticket after reply	
	Send Reply Cancel

- Check "Publish this question answer as an article in knowledge base" if you want to send the reply to a user as well as publish the answer as an article in the knowledge base. The published article will help other users if they have the same question. Refer article Publishing a ticket as an article in knowledge base for more details.
- Check "Close this ticket after reply" if you want to close the ticket after sending a reply.
- Click on "Send Reply" button to send the reply to a user. Otherwise, you can click on "Cancel" button to abandon the
  process.
