Adding a language translator account

🖹 156 🔘 Gurjeet Kaur 💾 August 4, 2017 🖿 Languages

Translators are admin users who are responsible for translating PHPKB front-end into your custom language. This user level is only available in multi-language versions of PHPKB software. Translators are not allowed to access any other sections in the admin area and can only translate the contents of language file(s) assigned to him. Follow the steps given below to create the translator account.

1. Expand **Users** section of the left navigation bar and click on "**Add New**" link to open 'Add User' page as shown below in figure:

User Details		
Full Name *	Daniel Flintoff	
Username *	Not Available admin	
Password *	•••••	
Confirm Password *	•••••	
Email Address*	daniel_flintoff@example.com	

- 2. Fill in details of the user in given fields as shown in the above screenshot.
- 3. Please note that you can select a language from language drop-down available on the right side to add translator under selected language.

Account Detai	ls	
Level *	Translator	•
Group Permissions *	 None Assign manually Inherit from another user 	
Status *	Active Inactive	
Whitelist User?	 Yes No (Comments posted by this user will require approval.) 	
Send Email	 Yes No 	

- Select Level as 'Translator' in Account Details section. Refer Creating User Account article for more details of other fields.
- 5. Click "Save User" button to save translator account into the knowledge base.

Custom Fields

Applicable To: Standard (Multi-Language) Edition, Enterprise Multi-Language Edition (MySQL), Enterprise Multi-Language Edition (SQL Server)
