

# Adding a language translator account

 Gurjeet Kaur

 4.72K  0

Translators are admin users who are responsible for translating PHPKB front-end into your custom language. This user level is only available in multi-language versions of PHPKB software. Translators are not allowed to access any other sections in the admin area and can only translate the contents of language file(s) assigned to him. Follow the steps given below to create the translator account.

1. Expand **Users** section of the left navigation bar and click on "**Add New**" link to open 'Add User' page as shown below in figure:

**User Details**

Full Name \*

Username \* **Not Available**

Password \*

Confirm Password \*

Email Address \*

Language:  EN

2. Fill in details of the user in given fields as shown in the above screenshot.
3. Please note that you can select a language from language drop-down available on the right side to add translator under selected language.

**Account Details**

Level \*

Group  None

Permissions \*  Assign manually  
 Inherit from another user

Status \*  Active  
 Inactive

Whitelist User?  Yes  
 No (Comments posted by this user will require approval.)

Send Email  Yes  
 No

Language:  EN
