Steps - Finding the exact location of php.ini configuration file:

1. Login to **Administrator Control Panel** as **Superuser**.
2. Go to **Tools** > **Manage Settings** > **Miscellaneous** tab > **File Upload Settings** section > **php.ini Configuration** and click **View phpinfo()** link (open in a new tab).
3. Now look for "**Loaded Configuration File**", this will tell you the location of php.ini configuration file.

That's all!

[1]# Forbidden

You don't have permission to access this resource.

Additionally, a 403 Forbidden error was encountered while trying to use an ErrorDocument to handle the request.
