There is a facility to bulk load (import) users in your knowledge base powered by PHPKB Software. You can bulk import users into PHPKB through the **CSV Import** section that can be accessed via:

Admin Dashboard > Tools > Import Data > CSV Import tab and select **Import Type** to be **Users** as shown in the screenshot below.

CSV Import HTML Import

Import Options

Import Type *

Users

Delimiter *

Comma ,

☒ First Line Contains Field Names

Step 1 (Specify CSV Source File)

Choose File No file chosen

Next Cancel

Then follow the onscreen instructions to load/import users.
