

Can you customize this product for my website?

 Ajay Chadha

 4.37K  0

Yes, We can customize PHPKB Knowledge Base Software to match your website's look, feel, and color scheme. All you need to do is send us your Website URL and just a few details of how you would like the PHPKB to be integrated into your website.

Though PHPKB knowledge base software is very easy to modify for the look and feel of your website however if you have no experience in PHP, HTML and CSS then we can customize the script to suit your website's look and feel. Our hourly rates are just \$45 per hour and it usually takes only 6 to 8 hours for the customization.

Have a look at some of the [customized examples](#) of PHPKB knowledge base software.

The screenshot shows the homepage of the ELMA knowledge base system. The header features the ELMA logo and navigation links for 'Сайт' (Site), 'Контакты' (Contacts), 'Справка' (Help), and 'Вход' (Login). The main content area has a title 'Добро пожаловать в Базу знаний системы ELMA!' (Welcome to the ELMA knowledge base system). It includes a search bar and a grid of features categorized for users, analysts, and developers. Below this is a section for 'Популярные статьи' (Popular articles) and 'Последние добавленные статьи' (Recently added articles), each with a list of articles with their titles and publication dates. At the bottom, there's a footer with a 'Контакты' button and a copyright notice.

Добро пожаловать в Базу знаний системы ELMA!
