# Is it possible to force users to login in order to see KB content?

👤 Ajay Chadha   👁 5.02K   💬 0

Yes, this facility is present in PHPKB knowledge base software so that you can restrict access to the knowledge base for only logged-in users. Please refer to the steps below to enable that setting.

1. Login to the admin control panel.
2. Go to the "Tools" » "Manage Settings" page.
3. There is a setting called "KB Access" as shown in the image below.

4. You can set it as "Restricted" so that only logged-in users can access the KB.

[1]Forbidden

You don't have permission to access this resource.

Additionally, a 403 Forbidden error was encountered while trying to use an ErrorDocument to handle the request.
