1. This section consists of two tabs for Article Subscribers and KB Subscribers. By default **Article** subscribers are displayed but you can click on **'Knowledge Base'** tab to view KB Subscribers.
2. **ID:** This column displays the unique serial number of the subscriber in the database.
3. **Name:** This column displays the name of the subscribed user.
4. **Title/Subscribed for:** In article subscribers section **'Title'** column is displayed which shows the title of the article for which user has subscribed, whereas **'Subscribed For'** column is displayed under KB subscribers section to show subscription is valid for the entire knowledge base.
5. **Status:** This column displays whether the subscriber is active or inactive to receive notification. The tick icon shows the active status, whereas crossed icon shows the inactive status.
6. **Subscribed On:** This column displays the date and time when the user has subscribed.
7. **Actions:** This column contains operations that can be performed on subscribers.
   Edit - Click to edit Subscriber details. You can modify the name, email address and subscription status of the subscriber on the edit screen.
   Delete - Click to delete the subscriber from the knowledge base.
8. You can perform the same action on more than one subscriber using "**Select Bulk Action**". For this, you need to mark checkboxes corresponding to subscribers for which operation is required, then select the action from **Bulk Actions** dropdown and click on "**Apply**" button.
